MEMBER NEWS

and commissioned by the Naval Facilities Engineering Command Washington, Washington, D.C., the facility is scheduled for completion in June 2011. The project consists of the design and construction of a 719,000 gross square-foot multi-story facility. MILDEP was awarded to Hensel Phelps Construction Co. in July, 2008.

Forrester Construction has been awarded the \$70 Million Design/Build Modernization of Building W200 at the Washington Navy Yard. The project will involve a full gut, renovation, and modernization of the building including structural upgrades as required for ATFP (Anti-Terrorism Force Protection) and seismic criteria.

The renovation will result in approximately 250,000 square-feet of primarily office space. The modernization includes a goal to be certified LEED Silver. The project also includes relocating the Naval Criminal Investigative Service and their Naval Historic Office to temporary swing spaces, demolishing a pedestrian bridge and the addition of 240 parking spaces. The Architect of Record is **Einhorn Yaffee Prescott**. Additional design team members include EDG2 (Mechanical and Plumbing Engineer) and WBCM (Civil and Structural Engineer). Construction is scheduled to be completed by September 2010.

FORMA has been in the news lately including mentions in *The Medical Bulletin*, a news journal for physicians and the medical community in the DC metro, Northern Virginia, Baltimore and San Francisco Bay areas. It features an article authored by Andreas under the title: "Why Good Design IS Good Business" The firm also appeared *The Washington Post* Home Section which featured the Dyckman-Madison residence as the cover story "On the Riverfront." Other media coverage includes, "The Artful Home" which includes an interview with Andreas in the column "Artful Lives." *Home & Design* ran the article "Kalorama Cool" which features **FORMA's** award-winning Apartment in Sheridan-Kalorama Project. *SYNTHESEIS Magazine*, published in Cyprus and Greece showcases **FORMA's** House by the River project. *ArchitectureDC Magazine* included the article, "Architects Designing Furniture" which includes **FORMA's** Cha-Cha line. **FORMA** is also proud to announce the completion of our latest healthcare project Obeid Dental, a boutique implant and cosmetic dental clinic in Chevy Chase, MD

G

Genis Design, P.C. was recently awarded The Yards Foundry Lofts architectural cost review and physical needs assessment, Mayfair Mansions (five buildings) replacement reserves report, Gonzaga College High School Carmody Athletic and Academic Center and New Theater Support Building specifications, Mount Pleasant Library Renovation and Expansion specifications, Central Union Mission specifications, and replacement reserves reports for multifamily residential buildings.

Group Goetz Architects (GGA) will move into its newly designed LEED Platinum office at 2900 K Street in Washington DC's Georgetown neighborhood. The space, located in the Carlyle Group's "trophy building", boasts Potomac and Kennedy Center views and is located directly next to the iconic House of Sweden. The space is one of the few offices in Washington, DC, to design to the LEED Platinum rating.

To establish GGA's new emphasis on wellness, the new 16,000 square-foot space will have a completely open floor plan, including executive offices and social areas that encourage employee commitment and peer relationship building. All employees will enjoy 100% natural light penetration throughout the office as well as a state of the art health club facility, individual temperature control, day light controlled lighting, healthy vending machines and access to alternative transportation, including metro, car sharing and bikes. The new space will also have a high-tech conference center with wine bar, espresso bar, fireplace and library.
